## 1JBRGR - ESTES ERIN

---

Bar Spacing. Placing drawings are used to show where the reinforcing bars to be placed. Sometimes the structural and placing drawings are very specific about exactly where reinforcing bar is placed. The ironworkers need to figure out how those reinforcing bars relate to the overall dimensions of the structure.

The 29th Edition of the Manual of Standard Practice contains information on recommended industry practices for estimating, detailing, fabricating, and placing reinforc-

ing steel for reinforced concrete construction. Includes suggested specification for reinforcing steel.

Updated illustrations of standard column ties and special condition column ties. Expanded and updated safety precautions coverage, emphasizing the importance of jobsite safety. Updated coverage of bar supports, spiral fabrication tolerances, and first-bar placement according to current Manual of Standard Practice.
