Essential Oils And Cancer (Book Two): Using Essential Oils ...

The truth about essential oils for cancer is three-fold. First - there are no placebo, randomized-controlled studies that evaluate essential oils on humans, however, in vitro and animal studies suggest that essential oils can help prevent and treat cancer at the cellular level. In terms of human studies, essential oils have only been shown to be effective at managing the side effects related to cancer itself, and the side effects people suffer at the hands of medical interventions.
