AMA Citation Format: American Medical Association Citation ...

Precautions. Griseofulvin should be discontinued if severe skin reactions occur. Hypersensitivity type reactions (such as skin rashes, urticaria, erythema multiforme-like drug reactions, and rarely, angioneurotic edema) have been reported. Such reactions may require griseofulvin discontinuation and appropriate countermeasures.

How to use Griseofulvin. Antifungal medications work best when the amount of medicine in your body is kept at a constant level. Therefore, take this drug at evenly spaced intervals. Continue to take this medication for the full prescribed length of treatment even if symptoms improve after a few days.
