This book deals with the application of techniques and methods of chemical analysis for the study of biomass and its conversion processes, aiming to fill the current gap in the book literature on the subject. The use of various techniques and analytical methods is presented and discussed in a straightforward manner, providing the reader with the possibility of choosing the most appropriate methodologies for analysis of the major classes of plant biomass and its products. In the present volume, a select group of international specialists describes different approaches to understand the biomass structure, their physical and chemical properties, the parameters of conversion processes, the products and by-products formation and quantification, quality parameters, etc. Modern chemistry plays a strong economic role in industrial activities based on biomass, with an increasing trend of the importance of its application from the deployment of biorefineries and the principles of green chemistry, which make use of the potential of biomass with decreasing impact negative environmental. In this context, analytical chemistry can contribute significantly to the supply chains of biomass, be it plant or animal origin; however, with the first offering the greatest challenges and the greatest opportunity for technical, scientific and economic progress, given its diversified chemical constitution. Thus, the chemical analysis can be used to examine the composition for characterizing physicochemical properties and to monitor their conversion processes, in order to obtain better products and uses of biomass. The quality of the biomass used determines the product quality. Therefore, reliable information is required about the chemical composition of the biomass to establish the best use (e.g., most suitable conversion process and its conditions), which will influence harvest and preparation steps. Conversion processes should be monitored for their yield, integrity, safety, and environmental impact. Effluent or residues should be monitored and analyzed for environmental control. Co-products need to be monitored to avoid interference with the product yield and product purity; however, co-products are also a good opportunity to add value to the biomass chain. Finally, products need to be monitored and analyzed to determine their yields and purity and to ensure their quality. In this context, analytical chemistry can contribute significantly to the biomass supply chains, be it of plant or animal origin.

Audrey York isn't letting the scandal in her past stop her from making a fresh start in Willow Glen, Tennessee. And now, with the help of a kindhearted neighbor, she's getting the chance to build her dream café. Then she meets her neighbor's son—sexy, single carpenter Brady Witt—who makes it clear he doesn't trust her one bit. Someone has to protect Brady's father from women out to hook a

lonely widower. Only, the beautiful blond restaurateur doesn't fit the profile. In fact, she isn't like any woman Brady knows. Just when Brady's starting to believe in her, Audrey's past comes barreling back. Can she trust Brady with the truth? Or will she lose the family she's found at last when he discovers who she is—and what she's running from?

Not quite what the tycoon ordered... Successful New York businessman Matt Strickland expects nothing but the very best. However, his newest employee—nanny Tess Kelly—is a world away from the requirements stipulated in his advertisement. The words sensible, smart and strict just aren't in this firecracker's vocabulary! Matt's smouldering sexiness might be off the scale, but Tess thinks his capacity for fun definitely shows room for improvement. She's used to bringing out the best in her little charges, but it's a whole different ball game with her gorgeous boss...when he's determined to keep things professional...

University Physics, 1e by Bauer and Westfall is a comprehensive text with enhanced calculus coverage incorporating a consistently used 7-step problem solving method. The authors include a wide variety of everyday contemporary topics as well as research-based discussions. Both are designed to help students appreciate the beauty of physics and how physics concepts are related to the development of new technologies in the fields of engineering, medicine, astronomy and more.

180 reproducible quick activities - one for each day of the school year ; review, practice, and teach physics.

Eye diseases are very common. This book deals with diverse features of ophthalmology - the medical discipline of analysis and management of eye diseases. It is separated into a variety of clinical sub-areas of expertise, such as cornea, cataract, glaucoma

In this 10th book in the Henry and Mudge series, Henry's big dog Mudge does not know what these words mean: Heel. Sit. Stay. Mudge needs to go to school!

The Applied Mathematics, Modelling, and Computational Science (AMMCS) conference aims to promote interdisciplinary research and collaboration. The contributions in this volume cover the latest research in mathematical and computational sciences, modeling, and simulation as well as their applications in natural and social sciences, engineering and technology, industry, and finance. The 2013 conference, the second in a series of AMMCS meetings, was held August 26–30 and organized in cooperation with AIMS and SIAM, with support from the Fields Institute in Toronto, and Wilfrid Laurier University. There were many young scientists at AMMCS-2013, both as presenters and as organizers. This proceedings contains refereed papers contributed by the participants of the AMMCS-2013 after the conference. This volume is suitable for researchers and graduate students, mathe-

maticians and engineers, industrialists, and anyone who would like to delve into the interdisciplinary research of applied and computational mathematics and its areas of applications.

Dana and Adam are constantly at each other at Donovan and Lewis Design Studio, but with him being a ladies' man and her a single mother, it's to be expected. When Adam offers to be Dana's date to a reunion to show up her ex and the father of her daughter, a night of work becomes dangerously mixed with pleasure. Soon, the pair bounce from bickering at each other to Adam helping out Dana, whether it be fixing her roof or fixing her heart. Why are they so sweet together now? Could it be because of her unexpected baby?

It is plausible that occasionally, a rogue electromagnetic wave might develop in interstellar and/or intergalactic space which would carry a large volumetric electromagnetic energy density and would travel at the speed of light in vacu. Accordingly, a spacecraft of Christmas Tree Light-Sail style might harness the energy of the rogue wave regardless of whether the wave was generally incident from the stern or bow direction with respect to the spacecraft. It is also plausible that rogue waves comprised of microwaves, infrared light, visible light, ultraviolet light, x-rays, gamma rays, and the like may develop. For space craft on itineraries lasting at least a canonical ensemble of years in the ship frame or also in the background reference frame, such rogue waves are bound to occur. Moreover, even larger waves that are formed from rouge waves are possible and may have amplitudes, volumetric energy densities, and total energies which are much greater than that of the first hierarchy of rogue waves. Additionally, these second hierarchies of rogue waves may combine to form 3rd hierarchies of rogue waves which may in turn combine to form 4th hierarchies of rogue waves and so-on. Rogue waves as such may have magnetic wave and gravitational wave analogues. Electromagnetic and magnetic waves may plausibly include both Standard Model and Mirror Matter Model forms.

On a moonless night, he rides into the winter forest on his beast as black as midnight... Dashing stranger, Henry Dunham, comes to Salem on a mysterious errand, but is thrown from his horse in the dead of night and rescued by the local Puritan midwife, Lydia Colson. Haunted by her past, Lydia is running from her own dark secrets, avoiding intrusive questions by pretending her dead husband is simply... away. But when she and Henry are caught in a compromising situation, one punishable by Puritan law, he saves her from scandal by claiming to be her errant spouse... and claiming her bed. Forced to fake a marriage, Lydia and Henry find their passion overwhelming and their vows a little too real. As their lies become truths, a witch hunt closes in on Lydia, threatening not only their burgeoning love, but her life.

This title presents Orage's commentaries on 'Beelzebub's Tales to his Grandson', which are an essential part of the Fourth Way literature. They demonstrate a way of approaching and understanding a work that Orage considered to be literature of the highest kind.

B) He's got a few secrets of his own....

An emergency homecoming forces three sisters to deal with issues they'd rather ignore in this touching novel by the author of *All About Evie*. Ever since the Bommarito sisters were little girls, their mother, River, has written them a letter on pink paper when she has something especially important to impart. This time, the message is urgent—River requires open-heart surgery, and Isabelle and her sisters are needed at home to run the family bakery and care for their brother and ailing grandmother. Isabelle has worked hard to leave Trillium River, Oregon, behind as she travels the globe taking award-winning photographs. Still, she and her sisters, Cecilia, an outspoken kindergarten teacher, and Janie, a bestselling author, share a deep, loving bond. And all of them adore their brother, Henry, whose disabilities haven't stopped him from helping at the bakery and bringing good cheer to everyone in town. But going home again forces open the secrets and hurts the Bommaritos would rather keep tightly closed—Isabelle's fleeting relationships, Janie's obsessive compulsive disorder, and Cecilia's plans to get even with her cheating ex-husband. Now, working together, Isabelle and her sisters begin to find answers to questions they never knew existed, unexpected ways to salve their childhood wounds, and the courage to grasp surprising new chances at happiness. As irresistible as one of the Bommaritos' giant cupcakes, *Henry's Sisters* is a novel about family and forgiveness, mothers and daughters—and gaining the wisdom to look ahead while still holding onto everything that matters most. "This finely pitched family melodrama is balanced with enough gallows humor and idiosyncratic characters to make it positively irresistible." —Publishers Weekly

Storms make Henry jump. They make his big dog Mudge even jumpier. When the thunder goes pow!, Mudge goes to hide. Poor Mudge! How can Henry help his best friend?

Spyke and Flower once again take center stage in a classic adventure of Munchkin proportions.

Henry James was fascinated by clothing and dress. This book examines, for the first time, the role of dress in reinforcing thematic and symbolic patterns in James's fictional world. Hughes traces a development from the significance of dress in discussion of 'the American Girl' in the early works, through dress as an indicator of social position, to the emergence of the more unstable and threatening aspects of dress, which culminate in the strange case of the coat of changing colours in *The Sense of the Past*.

A FAMILIAR STRANGER Jesse Calder had left Abby Martin waiting under the old cottonwood tree with a promise to return . That had been five years ago. Now, a horrific accident, lies and secrets stood between them, but when Jesse had the chance to work at Abby's ranch again, he took it. Yes, she was a widow and a mother, and not quite as forgiving as he'd hoped, but time had changed him, too. He simply could not ignore the spark inside that yearned to reignite the heat between them. Or forget that Abby's little girl had eyes an all-too-familiar shade of Calder blue .

It gives you tips and advice to grow a thriving herb garden that will add depth and flavor to home-cooked meals-as well as boost your health. How to choose, plant, and care for herbs Covers ready-made versus homemade soil mixes, starting plants from seeds, and other fundamentals How to prevent insects, pests, and diseases from invading your containers Over 30 herb recipes for everyday uses, including rubs, marinades, beauty products, and more Whether you're interested in getting step-by-step instructions for starting on your first herb garden or already have one and want to learn new tips and techniques, *Herb Gardening For Dummies, 2nd Edition* has you covered!

With antibiotic-resistant infections on the rise, herbal remedies present a naturally effective alternative to standard antibiotics. Herbal expert Stephen Harrod Buhner explains the roots of antibiotic resistance, explores the value of herbal treatments, and provides in-depth profiles of 30 valuable plants, noting the proper dosages, potential side effects, and contraindications of each.

Louise Rushing has been delivered and set free from the bondage of sin. "Alcohol is no longer a crutch for me. I don't have to turn tricks with men in order to feel loved. I don't carry around bitterness and unforgiveness in my heart against those who used and abused me. I know how to love and forgive. It is all because of my Lord and Savior, Jesus Christ. He taught me how to overcome all of the demons that haunted me all my life. I am free, really free." This wonderful God saved me from a life of sin and death. I owe Him everything. He is my life. This book is all about what He did for me in my life. He has sent me out to let this dying world know that there is a God that forgives and can heal a broken heart. I am a living witness. If He did it for me, He can do it for you. Louise Rushing was ordained in October 29, 2011 by Pastor Larry Brooks, of Crossroads Kingdom Ministries, and strives to help her family and others to seek salvation, learn and grow in the Word of God through weekly Bible studies, and by sharing her testimony of God's grace all over the greater Seattle area in various churches, prisons, women's shelters, women's conferences, and prayer breakfasts.

This collection contains twenty-seven new essays on American paranoia drawn from a range of disciplines, including American studies, film studies, history, literature, religious studies, and sociology. It's arranged by topic and largely in chronological order, explore manifestations of fear throughout the history of the United States. Approaching the topic from a variety of perspectives and methodologies, contributors to the collection explore theoretical constructions of fear, religious intolerance in early American culture, racial discrimination, literary expressions of paranoia, and Cold War anxieties, as well as phobias of the modern age and about the future. Together, these essays cover topics from nearly every period of U.S. history, offering a remarkable picture of the nameless, unreasoning, unjustified terror that Roosevelt discerned as such a paralyzing threat on the eve of the Second World War, and which continues to haunt American culture even as we shape our perceptions of the future.

The main outcomes of RILEM TC-226-CNM are summarized in this book. Key input was provided by researchers from countries that are main contributors in the R&D, design, construction, operation, and regulation of waste nuclear reinforced concrete facilities. Nuclear power plants and many of the facilities and structures used for the management of radioactive waste materials generated by the

fuel cycle use concrete in their construction. RILEM TC 226 CNM covered several areas including functional and performance requirements for concrete structures; degradation processes; phenomenological modelling, field experiences, tests approaches, instrumentation and monitoring methods dedicated to performance assessments; service-life models; aging Management of Nuclear Power Plants, repair techniques; codes and standards specific to radioactive waste facilities.

To love, honor and...protect Alain de Banewulf may have triumphed by the strength of his sword during the Crusades, and returned home steeped in glory, but he needs to prove to himself that his skills as a knight lie beyond the battlefield. Alain's life is set to change when he rescues Katherine of Grunwald from brigands. For Katherine is carrying a treasure desired by all of Christendom—one that men will kill for—and Alain has sworn to protect her from the perils that lie ahead. With Katherine's help, perhaps Alain will come to realize that his honor depends not only on his bravery in the face of battle, but also on the strength of his love for one woman.

"What happens to people when they choose to unhook from the rules and modes of thought whiteness requires and expects of them? Whiteness promotes a form of hegemonic thinking, which influences not only thought processes but also behavior within the academy. Working to dismantle the racism and whiteness that continue to keep oppressed people powerless and immobilized in academe requires sharing power, opportunity, and access. Removing barriers to the knowledge created in higher education is an essential part of this process. The process of unhooking oneself from institutionalized whiteness certainly requires fighting hegemonic modes of thought and patriarchal views that persistently keep marginalized groups of academics in their station (or at their institution). In the explosive *Unhooking from Whiteness: Resisting the Esprit de Corps*, editors Hartlep and Hayes continue the conversation they began in 2013; they and the chapter contributors are brave enough to tell a contemporary reality few are brave enough to discuss. "In this groundbreaking and revolutionary sequel volume to *Unhooking from Whiteness: The Key to Dismantling Racism in the*

United States, Nicholas Hartlep and Cleveland Hayes and a group of fearless scholars-activists continue to manifest liberative counternarratives, counteraccounts, personal memoirs, poetry, and testimonios of 'humanity destroying crimes' of racism, white supremacy, and 'academic lynching' that pervade the academic psyche through epistemology, ontology, and axiology in the United States. This radical work poses a troubling challenge to humanity not only to unhook from, but also to contest, transgress, and liberate from, white supremacy to cultivate extraordinary human potential in a trembling and unjust world." - Ming Fang He, Georgia Southern University Nicholas D. Hartlep is an award-winning Assistant Professor of Educational Foundations at Illinois State University and co-editor of *Unhooking from Whiteness: The Key to Dismantling Racism in the United States and Critical Storytelling in Uncritical Times: Stories Disclosed in a Cultural Foundations of Education Course*. Winner of the Edgar Award, Eric Ambler's autobiography *Here Lies* is an intriguing look inside the mind of one of our greatest thriller writers. Here the famously recalcitrant Ambler peels back the layers of experience that affected his life with the same skill he uses to unfold the plots of his novels. His South London childhood; his brief engineering career, which he gave up to work in theater; his time as an advertising copywriter; the publication of his revolutionary spy novels in the 1930s and '40s, including such early classics as *A Coffin for Dimitrios* and *Journey into Fear*; his service in the film division of the British War Office during World War II, which allowed him to write his first screenplays; and his postwar renown as the leading writer in the genre on both sides of the Atlantic. In these pages this masterful spy novelist has composed a compelling and insightful examination of his life.
