Hospitality Management, 3e covers the core competency units in SIT07 Tourism, Hospitality and Events Training Package for the Diploma and Advanced Diploma in Hospitality Management. It provides the foundation knowledge needed for the role of a hospitality manager. The 3rd edition continues to combine theory with a skills building approach to explain the key principles of hospitality management at a supervisory, line management and senior management level. The text helps students develop the professional skills necessary to ensure quality products and services in all hospitality operations.

The Blue Book is an ultimate guide for financial and management accounting in the hotel industry, and it is like no other. Some academic books for the hospitality industry do exist; however, as the term "hospitality industry" refers to lodging, food & beverage, event planning, transportation, and recreation, the industry is already complex on its own. It explains why such books do not conveniently cater to a hotel's needs. Moreover, these books dedicate many pages to corporate financing, which has little or nothing to do with the property level. Although there are some ground rules within the hospitality industry, the hotel has its unique accounting procedures and techniques, and this is when this book plays a main role. With over twenty years of valuable experience with the best international hotel operators in six countries, the author shares the essential and practical knowledge and guidelines to build a strong Finance Division in hotels. Therefore, this book perfectly caters to all financial professionals, from the start of their careers to becoming finance leaders. The contents of this book are certainly comprehensive and thorough - highly relevant and easy to understand. This makes it suitable for financial professionals, stakeholders including division heads, general managers, auditors, owners, and owner's representatives. All will greatly benefit from it. The Blue Book includes the following twelve parts that provide the most essential needed information to understand the hotel finance functions and to build a strong finance division: Part One: Basic Accounting Part Two: Revenue Management Part Three: Cost Management Part Four: Labor Management Part Five: Other Expenses Guidelines Part Six: Financial Analysis Part Seven: Budgeting and Forecasting Part Eight: Cash Management Part Nine: Hotel Investments Part Ten: Hotel Management Software Part Eleven: Financial Functions and SOPs Part Twelve: Parent-Child Chart of Accounts This book uses the Uniform System of Accounts and GAAP as its main reference, ensuring that the information provided to the readers is the most updated and relevant version of the modern hotel industry.

This textbook presents basic financial accounting concepts and shows your students how they apply to the hospitality industry. Hospitality Industry Financial Accounting, Fourth Edition, was prepared in conjunction with the brand-new 11th revised edition of the USALI, to which Ray Schmidgall was a key participant. Revisions to a number of chapters have been made to reflect all of the changes made in this latest edition of the USALI.

Part of the Contemporary Review Series. Contemporary Tourism Reviews will provide you with critical, state-of-the-art surveys of all of the major areas of tourism study to people who are coming to a topic for the first time. Written by leading thinkers and academics in the field they provide flexible, current and topical information as an instant download.

Following a successful debut edition, this new Second Edition of Managerial Accounting for the Hospitality Industry builds on its strengths of clear organization and the ease with which students work through it. This new edition includes more basic math support for students and a more developed inclusion of ethical considerations and global changes both in accounting systems and in the hospitality industry.

Understanding the global hotel business is not possible without paying specific attention to hotel chain management and dynamics. Chains are big business, approximately 80 percent of hotels currently being constructed around the world are chain affiliated and, in 2014, the five largest brands held over a one million rooms. The high economic importance of the hotel chains and their global presence justifies the academic research in the field however, despite this, there is no uniform coverage in the current body of literature. This Handbook aids in filling the gap by exploring and critically evaluates the debates, issues and controversies of all aspects of hotel chains from their nature, fundamentals of existence and operation, expansion, strategic and operational as-

pects of their activities and geographical presence. It brings together leading specialists from range of disciplinary backgrounds and regions to provide state-of-the-art theoretical reflection and empirical research on current issues and future debates. Each of the five inter-related section explores and evaluates issues that are of extreme importance to hotel chain management, focusing on theoretical issues, the expansion of hotel chains, strategic and operational issues, the view point of the individual affiliated hotel and finally the current and future debates in the theory and practice of hotel chain management arising from globalisation, demographic trends, sustainability, and new technology development. It provides an invaluable resource for all those with an interest in hotel management, hospitality, tourism and business encouraging dialogue across disciplinary boundaries and areas of study. This is essential reading for students, researchers and academics of Hospitality as well as those of Tourism, Marketing, Business and Events Management.

This comprehensive textbook has, at its core, the importance of linking strategic thinking with action in the management of tourism. It provides an analytical evaluation of the most important global trends, as well as an analysis of the impact of crucial environmental issues and their implications. Now in its third edition, and reviewing the major factors affecting international tourism management, this well-established student resource provides an essential overview of strategic management for students and professionals in the tourism sector.

This textbook includes everything readers will need to gain a clear understanding of managerial accounting in a hospitality setting. The objective of this textbook is to teach students to be conversational in speaking "numbers." This means understanding fundamental accounting concepts, developing solid financial analysis abilities, and then applying them to understand and improve the operational performance of their hotel or restaurant. The book will accomplish this by studying the current practices of some of today's leading hotel and restaurant companies. Chapters will be developed under the auspices of a select group of hospitality industry General Managers, Directors of Finance, and Regional Accounting Managers to ensure that the information is current, accurate and useful. Understanding and applying the information will be the main focus of this book. This textbook should provide hospitality managers the knowledge and experience to be comfortable in using numbers to operate their departments. This includes developing the ability to perform all accounting and financial aspects of their position efficiently and correctly including revenue forecasting, wage scheduling, budgeting, P&L critiques, purchasing procedures and cost control methods. As a result, they will have more time to spend on the floor with their customers and employees. This knowledge will help them understand their operations and how to improve, change or expand them to increase revenues or

profits.
