KHIQGR - PERKINS TIANA

A growing number of scholars and political activists have invoked the term to describe a variety of changing economic, political, cultural, ideological, and environmental processes that are alleged to have accelerated in the last few decades. Rather than forcing such a complex social phenomenon into a single conceptual framework, Manfred Steger presents globalization in plain, readable English as a multifaceted process encompassing global, regional, and local aspects of social life.

Globalization: A Very Short Introduction - Very Short ...

In recent decades, the intensification of social relations across world-space and world-time has both generated and responded to new global problems beyond the reach of any single nation-state. 'The future of globalization' explains that the most daunting tasks facing humanity in the 21st century are the reduction of global inequality, the preservation of our planet, and strengthening ...

8. *The future of globalization - Very Short Introductions*

Manfred Steger, professor of Global Studies at the University of Hawaii at Manoa argues that globalization has four main dimensions: economic, political, cultural, ecological, with ideological aspects of each category. David Held's book *Global Transformations* is organized around the same dimensions, though the ecological is not listed in the title. This set of categories relates to the four-domain approach of circles of social life, and Circles of Sustainability. Steger compares the current stud
