This book is a comprehensive overview of the history and culture of the peoples who are now known as the First Americans. Author Walter C. Fleming covers the many different tribes that stretched from the Atlantic to the Pacific, including compelling biographies of their greatest leaders. He examines the beliefs, customs, legends and the myriad contributions Native Americans have given to modern society, and details the often tragic history of their conquest by European invaders, their treatment-both historical and recent-under the

U.S. government, and the harsh reality of life on today's reservations.

Discusses American history from prehistory through 2006, including brief biographical sketches of historical figures and events from popular culture.

Explains what Zen is and how it came to America, how to practice Zen and incorporate it into daily living, and the Zen approach to the world.

Presents a history of the Crusades discussing why these wars began and their impact on the world, the origins of Holy Orders and the roles they played in the Crusades, and life in the Middle Ages.

Covering such hot topics in psychology as the mind-body connection, drugs and new therapy treatments, new information on the role of genetics in personality development, and the impact of 9/11 on individual mental health, this is the new edition of the popular introduction to psychology-with expanded information on such great thinkers as Carl Jung, Erik Erikson, and B.F. Skinner.

You're no idiot, of course. You appreciate wine and brie, can pronounce "croissant," and know that "bonjour" means hello. But when it comes to actually learning the language, you feel stranded on the Eiffel Tower with no way down. Dont strap on your parachute just yet! The Complete Idiots Guide to Learning French, Second Edition makes mastering French fun and entertaining--instead of bogging you down with verb tenses and vocabulary lists. Youll feel confident about "parlaying" your new proficiency into conversations with native speakers.

America's Past and Its Relevance Today At times America's historical events can seem like a random collection of names, dates, and events, with no coherent storyline to pull them together. Understood as our collective biography, however, and free of the cheerleading found in many textbooks, The Complete Idiot's Guide to American History, Fourth Edition, enriches

our understanding of who we are and gives us an understanding of where we are going.

Let's face it- most students don't take calculus because they find it intellectually stimulating. It's not . . . at least for those who come up on the wrong side of the bell curve! There they are, minding their own business, working toward some non-science related degree, when . . . BLAM! They get next semester's course schedule in the mail, and first on the list is the mother of all loathed college courses . . . CALCULUS! Not to fear-The Complete Idiot's Guide to Calculus, Second Edition, like its predecessor, is a curriculum-based companion book created with this audience in mind. This new edition continues the tradition of taking the sting out of calculus by adding more explanatory graphs and illustrations and doubling the number of practice problems! By the time readers are finished, they will have a solid understanding (maybe even a newfound appreciation) for this useful form of math. And with any luck, they may even be able to make sense of their textbooks and teachers.

Turn organizing your space into your next great project with this comprehensive guide! In our materialistic, time-crunched society, lifestyles are compromised by disorganization and clutter. In a 2008 National Association of Professional Organizers survey, 65 percent of respondents noted that their household was at least moderately disorganized, 71 percent said their quality of life would improve if they were better organized, and 96 percent of respondents indicated that they could save time every day by becoming more organized. A survey by IKEA reported that only 11 percent of Americans know where their Social Security cards are. Unfortunately, the problem has gotten so out of hand for so many, they have no idea where to begin. The Complete Idiot's Guide® to Getting Organized Fast-Track, finds readers where they are and helps them take the first

steps toward a more organized and efficient life. In this book readers get: The principles behind effective organizing that can be applied to any situation in the home or office. A plan for clearing paper clutter and putting important documents where they can be found. Commonsense thoughts on prioritizing and letting go of objects that are no longer useful. A system for categorizing possessions that does not require people to buy more stuff to organize the stuff they already have. Tips for tackling disorganization hot spots, including home offices or dens, kitchens, closets, master bedrooms, garages, attics, and basement areas. Advice for staying ahead of messy family members or coworkers who can undo a person's hard work in an instant.

Offers advice on how to get a science fiction novel or short story published, including tips on the basic elements of a work of science fiction to getting an agent, and signing a contract.

Why are most plants green? Why doesn't stomach acid dissolve the stomach itself? Why are there more tornados in the Midwest than on the coast? This volume answers these questions and over 200 more, shedding light on the science behind them. As informative as it is entertaining, it addresses every major branch of science, including physics, chemistry, biology, geology, meteorology, astronomy, and cosmology. It highlights some of the big ideas that helped shape science as we know it, and discusses the future of science with regards to nanotechnology, genetic modification, molecular medicine, and string theory. ? Complete Idiot's Guides® have a proven track record of simplifying science with great success, as with volumes on physics and chemistry ? Entertaining scientific overviews of this kind also successful, including such titles as, 'The Pocket Idiot's Guide to Not-So-Useless Facts', and 'The Complete Idiot's Guide® to Understanding Einstein'.

You're no idiot, of course. You know your own mind, but when it comes to understanding what's really going on in your head - all those synapses, all those neurons - you feel like you're just about brain-dead! Don't let it unnerve you! 'The Complete Idiot's Guide to Understanding the Brain' proves that you don't need to be a genius to be in the know, and gives you lots of fun stuff to think about, too. In this 'Complete Idiot's Guide', you get: -The his-

tory of human knowledge of the brain. -Insights into what causes brain disorders and how best to treat them. -Thoughtful tips about the many different ways we learn new information.

You're no idiot, of course. You can serve up a mean s'il vous plaît in a French bistro, live la vida loca for a night of margaritas, and manage a sayonara! after sushi, sake, and karaoke. But when it comes to throwing around a little Yiddish, you feel like a total nebbish! Don't throw up your hands in a helpless "Oy, vey" just yet! The Complete Idiot's Guide® to Learning Yiddish is your guide to this unique tongue, whether you're tackling rules of grammar or just throwing around some key phrases so you sound a little less goyish. In this Complete Idiot's Guide® you get: --A fascinating explanation of how and why Yiddish developed. --An easy introduction to the Yiddish alphabet, as well as to the distinctive sound of Yiddish. --All the Yiddish you'll need for communicating with family and friends or for bargain-hunting on New York's Lower East Side. --A treasury of Yiddish words and phrases for everything.

Provides practical and timely advice on writing different types of children's books, working with publishers, understanding the publishing process, the importance of illustrators, and building a career in the field of children's literature. Original. 12,000 first printing.

For many, the idea of the Last Days brings to mind concerns and fears about the End of the World, The Antichrist, The Mark of the Beast, World War, and Armageddon. For centuries, man has been occupied with the idea that someday the world will come to an end. These fears and concerns have been fuelled by natural disasters, famines, world wars, and the writings of people such as Nostradamus, Jeane Dixon, and Tim LaHaye. When we think about the Last Days, we have more questions than answers. Is the world really going to end? Should we be concerned about the future? Where are we today in relation to the Last Days? Author Richard H. Perry urges readers to 'consider the source' when caught up in these questions that don't seem to have answers. In The Complete Idiot's Guide to the Last Days, Perry takes readers to the source of all discussion on the subject: the Bible itself.

Microbiology, the branch of biology that studies microorganisms and their effects on humans, is a key part of medical training curriculum. Written by a top professor of microbiology and an experienced science writer, this book is a basic microbiology course that can be understood by anyone, including medical students, profesio-

nals wanting to bone up of the subjects, and laypersons wanting to know about the topic. Prepared by a top professor of microbiology and an experienced popular science writer. Almost every student enrolled in medical school, nursing, dentistry, pharmacology, and veterinary medicine must take microbiology. Includes coverage on microbes and their relationship with each other, the body's immune system, infectious diseases, biotechnology, and bioterrorism.
