Inside the Largest Virtual Psychology Lab in the World | WIRED

MindTap for Kalat's Biological Psychology includes: Biological Psychology eBook, Mastery Training, Virtual Biological Psychology Labs with quizzes, Video Quizzes and Practice Tests. Please purchase only when directed by your instructor. When your instructor creates a course using MindTap, they will let you know your course key so you can access ...

MyLab Psychology is the teaching and learning platform that empowers you to reach every student. When combined with educational content written by respected scholars across the curriculum, MyLab Psychology helps deliver the learning outcomes that students and instructors aspire to. Learn more about how MyLab Psychology helps students succeed.

The Hank Virtual Environments Lab uses virtual environment technology to safely and systematically study perception-action problems with real world consequences. Our research focuses on understanding how pedestrians and cyclists cross traffic-filled virtual roadways, and how people perceive and adapt to virtual environments.

Another goal is to convey the excitement of the search for biological explanations of behavior. Kalat believes that Biological Psychology is “the most interesting topic in the world,” and this text convinces many students—and maybe you, too—with clear writing, amusing anecdotes and intriguing examples.

The Biological Circuit Lab is the continuation of the Synthetic Biology Lab. In this lab, you will improve the design of the previous biological circuit to target cancer cells. You will use the Gibson assembly technique to clone the circuit parts into the vector that will deliver it to the cells.

A genetic inability to metabolize the amino acid Phenylalanine. Tested for within 24 hrs. If not treated, Phenylalanine accumulates to toxic levels, impairing brain development and leaving children mentally retarded, restless, and irritable.

Virtual Lab: Biological Circuit Virtual Lab | Labster

The SES Lab focuses on understanding how the life experiences of children and adolescents shape their reactions to stress and their health. We are especially interested in how supportive social relationships reduce the effects of stress on our health, and may promote healthier biological profiles across development.

Research Labs — Psychology

laboratory, you will receive .375 points worth .375% of your final grade for a total of 3% when counting all eight Virtual Biological Psychology laboratories across the term. A missed Chapter Pre-Test will result in a grade of zero for that Chapter Pre-Test .
